I understand from Marco van huigenbos that organizers were talking to the minister yesterday. I'll send you Marcos number and he can direct you accordingly. He's on the ground and part of negotiating team.

Thanks Brent. Valuable information for Glen Motz , Grant Hunter, and Rajan Sawhney, as well as me. I passed it on as soon as I received it. Just haven't had time until now to catch up with all responses. Glen was down, met with Marco yesterday. Have a good day.

Wow, I'm a little slow . So Marco is one of your councillors ? Wonder how he reconciles illegal actions with his oath to the Queen? No wonder he has not communicated with me. Not impressed.

Hello Jim. Would your council support a letter to provincial and federal governments demanding an exit plan from all Covid mandates? This has to stop somewhere and they have that authority to make it happen. The lockdowns can't be justified to the people anymore based on the reported numbers. Citizens have been asked to do so much and have largely complied but not anymore. Thoughts? Suggestions?
